Sanders, M.D. shall seek and obtain the written agreement of the Board as to the nature and extent of such practice and the nature and extent of professional supervision available therein.
- D. Notwithstanding condition "A", above, Dr. Sanders may recommend or order the prescription, dispensation or administration of Controlled Substances to a patient of such institution where he may practice with the prior approval of the Board, provided that such pre-

scription, dispensation or administration is issued or made directly within the scope of institutional practice approved by the Board and is issued or made under the Controlled Substances licenses and registration of the approved institution.
